Attention: To whom it may concern

Reference: Completion of 105687 hydraulic fluid field trial

We are pleased to inform you that the 12 month field trial of Lukoil Geysler ST 46 hydraulic fluid as described in Service Procedure 105687 has successfully come to an end.

Lukoil Geysler ST 46 hydraulic fluid met or exceeded the following parameters:

- Minimum requirements for hydraulic fluid as described in DIN 51-524 part 2 and part 3.
- Compatibility with trace oils use for machine test and commissioning.
- After 12 months of testing the hoses and elastomers have not shown any signs of fluid incompatibility.
- The viscosity remained stable throughout the field trial.
- The oil additive remained stable and with in the parameters of the test protocol throughout the field trial.

This fluid has been added to Approved Hydraulic Fluids list for use on all generations of Husky machines.

If you have any questions or concerns about the test results please contact me;
Phone at 905-951-5000 extension 2654
